8 PHLOX

FOR ONLY

\$1
Pre-paid

Select the colors you like
Your choice of varieties

"Dazzling"—Yes, that's the word which most nearly describes the newer Phlox—for they truly are dazzling. Planted in the perennial border or in a separate bed by themselves, they make a showing which adds much grace and charm to the garden. The splendid range of outstanding colors makes them all the more desirable.

EASY TO GROW

Phlox succeed well in most any sunny position. A little extra attention in the way of judicious pinching back and cutting off the faded flowers will make it possible to have a continuous succession of bloom until frost. Water copiously during blossoming season.

ATHIS—Salmon.

BRIDESMAID—White, red eye.

ECLAIREUR—Brilliant rose-magenta, with lighter halo.

ENCHANTRÉSS—Bright salmon-pink with dark eye. Strong grower with rich, green, glossy foliage.

ETHEL PRITCHARD—Delightful French-mauve color. Tall, strong grower, flowers freely. Plant with white or yellow flowers for best effect.

EUROPA—Pure white with small crimson carmine eye.

GEN. PETAIN—Deep wine-red with large, beautifully shaped flowers.

INNOCENCE—Pure white.

MARSHAL FRENCH—Best red that has ever been grown. Retains the beautiful carmine color over a period of many days.

MILLY VON HOBOKEN—An outstanding delicate pink, retaining its color throughout the hot days.

MRS. JENKINS—White.

RICHARD WALLACE—White, vermilion eye.

RIJNSTROOM—A splendid new Phlox with gigantic flowers of a bright pink. Quite tall; continues in bloom until frost.

R. P. STRUTHERS—Bright rosy-carmine, with claret-red eye.

SIEBOLDI—Red.

THOR—Deep salmon-pink, suffused with scarlet; a white halo surrounds the aniline red eye.

VON HOCHBERG—Red.

WIDAR—Red-violet, with large white eye.

WINEDOT—Pink, red eye.

HARDY CHRYSANTHEMUMS

Late blooming qualities make them most desirable. They flower profusely even after frosts. Be sure to plant hardy Chrysanthemums in your garden. Protect for the winter with two inches of straw or some other loose material, not leaves, as these pack too tightly and will smother the plants.

ALL 7

ALL 7

LARGE FLOWERING VARIETIES

ALICE HOWELL—A very fine orange-yellow.

CRIMSON BEAUTY—Deep velvety maroon. One you will enjoy very much.

JAPANESE MOUNTAIN—A beautiful mixture of single flowers. A real novelty.

LILAH—Early. Very beautiful lavender-rose.

MRS. F. H. BERGEN—Large pale pink. Deep centers. Very pretty.

PHILADELPHIA—Deep rose. Early. Attractive and fine.

SNOWCLAD—A pure white. One of the best.

tion you want.

POMPON and BUTTON VARIETIES

BESSIE BROWN—Very pretty reddish-brown. Button type.

FLORA—A pompon variety of a most beautiful golden-yellow. One of the best.

LUCIFER—Most beautiful blood-red. A charming pompon.

MARIE ANTOINETTE—Bright pink. This pompon variety is very choice.

PINK DOTY—An early flowering pompon of a splendid clear pink color.

RED BUTTON—An excellent button variety. Color, very pretty wine red.

WHITE DOTY—A splendid pure white. An early flowering pompon.

DWARF IRIS

8 FOR \$1
Prepaid

The first Iris of the spring belong to the dwarf family. They are the joy of the early garden, so colorful, so sure to grow, so fragrant. They are indispensable for the rock garden; very effective for the front of the border. We have selected 8 beautiful dwarf varieties, each distinctly different from the other, and all labeled for this collection. We know when they flower next spring they will be most pleasing.

MALLOW MARVELS HIBISCUS

8 LARGE SIZE CLUMPS \$1

SENT COLLECT for Transportation Charges.

The largest flowers of the summer garden. Gorgeous when in bloom, July to September. Grow 3 to 8 feet tall with spreading branches. May be planted either among or used as a substitute for shrubs.

Our Hibiscus are not the ordinary kinds, but have been produced from the finest strains available. The collec-

tion contains the very choicest of mixed seedlings in all shades of pink; some pink with red throats; white with red throats, pure white; red; and an occasional cream colored one.

Order them NOW for spring planting.
